TABLE OF CONTENTS

INVITED PAPERS BY TOPIC

I. **MODELING CONSUMER BEHAVIOR**

Chair/Organizer: JUDITH T. PAGE, Bell Laboratories

Analysis of Panel Data for Market Structure Determination. VITHALA R. RAO, DARIUS J. SABAVALA, Cornell University 1

Some Further Results on Bayesian Methods in the Stochastic Modeling of Buying Behavior. JACK C. LEE, Bell Laboratories; DARIUS J. SABAVALA, Cornell University 6

II. **BAYESIAN APPROACHES TO ECONOMETRICS**

Chair: SEYMOUR GEISSER, University of Minnesota
Organizer: JOSEPH B. KADANE, Carnegie-Mellon University

Optimal Sequential Decisions in Problems Involving More Than One Decision Maker. MORRIS H. DeGROOT, JOSEPH B. KADANE, Carnegie-Mellon University 10

Bayesian Analysis of Dichotomous Quantal Response Models. ARNOLD ZELLNER, University of Chicago; PETER E. ROSSI, Northwestern University 15

III. **OUTLIERS IN ECONOMIC DATA**

Chair: WAYNE A. FULLER, Iowa State University
Organizer: WILLIAM J. HAWKES, Jr., A.C. Nielsen Company

On the Development and Applications of Long Tailed Skewed Distributions with Possible Outliers. ROBERT V. HOGG, STUART A. KLUGMAN, University of Iowa 25

Determining Outliers in Multivariate Surveys by Decomposition of a Measure of Information. DIETRICH STROBEL, A.C. Nielsen Management Services 31

Discussion - K.P. SRINATH, Statistics Canada 36

Discussion - NASH J. MONSOUR, Bureau of the Census 37

IV. **CONCURRENT SEASONAL ADJUSTMENT**

Chair: DAVID A. PIERCE, Federal Reserve Board
Organizer: DAVID F. FINDLEY, Bureau of the Census

Revisions of Seasonally Adjusted Data Due to Filter Changes. ESTELA BEE DAGUM, Statistics Canada 39

Concurrent Adjustment with Census X-11. SANDRA K. McKENZIE, Bureau of the Census 46

Discussion - P.B. KENNY, Central Statistical Office, London 56

V. **SPECIFICATION ERROR TESTS IN ECONOMETRIC MODELS**

Chair/Organizer: DAVID E. SPENCER, Washington State University

The Use of Robust Estimators in Improving the Power of Specification Error Tests. JAMES B. RAMSEY, ALBERT ALEXANDER, New York University 59

On the Development and Applications of Long Tailed Skewed Distributions with Possible Outliers. ROBERT V. HOGG, STUART A. KLUGMAN, University of Iowa 25

Determining Outliers in Multivariate Surveys by Decomposition of a Measure of Information. DIETRICH STROBEL, A.C. Nielsen Management Services 31

Discussion - K.P. SRINATH, Statistics Canada 36

Discussion - NASH J. MONSOUR, Bureau of the Census 37

IV. **CONCURRENT SEASONAL ADJUSTMENT**

Chair: DAVID A. PIERCE, Federal Reserve Board
Organizer: DAVID F. FINDLEY, Bureau of the Census

Revisions of Seasonally Adjusted Data Due to Filter Changes. ESTELA BEE DAGUM, Statistics Canada 39

Concurrent Adjustment with Census X-11. SANDRA K. McKENZIE, Bureau of the Census 46

Discussion - P.B. KENNY, Central Statistical Office, London 56

V. **SPECIFICATION ERROR TESTS IN ECONOMETRIC MODELS**

Chair/Organizer: DAVID E. SPENCER, Washington State University

The Use of Robust Estimators in Improving the Power of Specification Error Tests. JAMES B. RAMSEY, ALBERT ALEXANDER, New York University 59

The Statistical Implications of Preliminary Specification Error Testing. MATHEW J. MOREY, Indiana University 68

The Common Structure of Regression-Based Specification Error Tests. JERRY G. THURSBY, Ohio State University 74

Discussion - NAGESH S. REVANKAR, State University of New York, Buffalo 81

VI. NEW DIVISIA INDICES OF THE MONEY SUPPLY

Chair: A. RONALD GALLANT, North Carolina State University
Organizer: WILLIAM A. BARNETT, University of Texas

The Flexible Laurent Demand System. WILLIAM A. BARNETT, University of Texas at Austin 82

A Multiplier Model for Controlling Divisia Monetary Aggregates. PAUL A. SPINDT, Federal Reserve Board 90

The Effects of Substitution Among Assets and Technological Innovation on Money Demand. EDWARD K. OFFENBACHER, Federal Reserve Board 95

Discussion - JOHN GEWEKE, University of Wisconsin and Carnegie-Mellon University 103

VII. REGRESSION DIAGNOSTICS AND INFLUENTIAL OBSERVATIONS

Chair/Organizer: WILLIAM E. WECKER, University of Chicago

Influential Observation in Data Analysis. MIRIAM GASKO, University of Chicago; DAVID DONOHO, Harvard University 104

Discussion - WILLIAM S. KRASKER, Harvard University 110

VIII. CANADIAN TRANSPORTATION STATISTICS

Chair: BRIAN NEMES, Statistics Canada
Organizer: MICHAEL HIDIROGLOU, Statistics Canada

The Intercity Bus Passenger Origin-Destination Survey. E.E. STRAUSS, Statistics Canada; W. BURR, Transport Canada 111

The Redesign of a Survey to Measure Commodity Origin and Destination Movements by the For-Hire Trucking Industry in Canada. ROBERT LUSSIER, STEVEN MOZES, Statistics Canada 118

The Methodology of the Canadian Air Scheduled International Passenger Origin and Destination Estimation System. GREG HUNTER, LISA DiPIETRO, Statistics Canada 127

IX. NONNORMAL DISTRIBUTION MODELING IN BUSINESS AND ECONOMICS

Chair: JOE GASTWIRTH, George Washington University
Organizer: S. JAMES PRESS, University of California-Riverside

NonGaussian ARMA Model Identification and Estimation. KEH-SHIN LII, University of California, Riverside 135

Bayesian Inference for Pareto Populations. BARRY C. ARNOLD, S. JAMES PRESS, University of California, Riverside 142

CONTRIBUTED PAPERS BY TOPIC

I. MULTIPLE TIME SERIES

Chair/Organizer: WILLIAM R. BELL, Bureau of the Census

Prediction of Multvariate Time Series by Autoregressive Model Fitting. RICHARD LEWIS, GREGORY REINSEL, University of Wisconsin-Madison 149

Small Sample Properties of Dimensionality Statistics for Fitting VAR Models to Aggregate Economic Data: A Monte Carlo Study. GERALD NICKELSBURG, University of Southern California 155

Variable Parameter Regression Models for Rational Expectations. JOSEPH A. MACHAK, W. ALLEN SPIVEY, WILLIAM J. WROBLESKI, University of Michigan 161

Asymptotic Properties of Unstable Multiple Time Series. V.A. SAMARANAYAKE, DAVID P. HASZA, Kansas State University 166

The Theoretical Model-Building Problem for Nonstationary Moving Average Processes. MARC HALLIN, Universite Libre de Bruxelles 172

Discussion - RICHARD A. MEESE, University of California at Berkeley 175

II. **STUDIES IN FINANCE AND INFLATION**

Chair: KAJAL LAHIRI, State University of New York at Albany

Finance: Demand-Following, Supply Leading or Both? Some Causality Tests. KANHAYA L. GUPTA, University of Alberta 176

Analysis of Sources of Risk in International Portfolio Diversification. EDMUND H. MANTELL, Pace University 182

Discrete Multivariate Analysis of Financial Data. W. GERALD PLATT, San Francisco State University 186

Effects of Inflation-Generating Process on the Market Price of Risk. C.S. PYUN, Memphis State University 189

Sources of Growth and Inflation in U.S. Manufacturing Industries. KAN H. YOUNG, U.S. Department of Commerce 194

III. **MODELING TIME SERIES AND THEIR COMPONENTS**

Chair: GARY D. KELLEY, Texas Tech University

Testing the Adequacy of a Fitted Autoregressive-Moving Average Model. GRETA M. LJUNG, Boston University 200

Time Series Analysis of GNP by the Maximum Entropy Method. GORTI V.L. NARASIMHAM, U.S. Department of Commerce 204

IV. **REGRESSION THEORY AND METHODS I**

Chair/Organizer: JOHN M. IRVINE, Bureau of the Census

A Study on the Proper Selection of Components in a Principal Components Regression. K. RAO KADIYALA, Purdue University; H. DENNIS OBERHELMAN, University of South Carolina 207

Application of Ridge Regression to the Study of Fertility Determinants. SHUI-LIANG TUNG, University of North Carolina 210

Ridge Regression and Estimation of Regulated Personal Loan Markets. NEELA D. MANAGE, Florida Atlantic University 216

Selection Rules for Principal Components Regression. Comparison with Latent Root Regression. KEREN COXE, Washington, DC 222

On Linking Ridge Regression and Principal Components Regression. LAWRENCE C. MARSH, University of Notre Dame 228

V. **SURVEY SAMPLING IN BUSINESS AND ECONOMICS**

Chair: ELDRED STRAUSS, Statistics Canada

Foreign-Ownership of U.S. Firms. SHIRLEY KALLEK, THOMAS L. MESENBOURG, Bureau of the Census . . . 234

A Multipurpose Sample to Estimate LIFO Indices for a Chain of Retail Stores. BENJAMIN KING, University of Washington 240

Sample Reselection of the Census Bureau's Current Business Surveys. LAWRENCE R. IMPETT, NASH J. MONSOUR, Bureau of the Census 245

Cooperation: The "Central Tendency" That Produces Above Average Data. HENRY S. WULF, Bureau of the Census 251

A Readers' Opinion Survey. WEN-FU P. SHIH, University of Florida 257

Robust Estimation in Survey Sampling Using Multivariate Auxiliary Information. ROGER L. WRIGHT, University of Michigan; CARL-ERIK SARNDAL, University of Montreal and the National Central Bureau of Statistics of Sweden 261

VI. ECONOMETRIC PREDICTION AND FORECASTING

Chair: GEORGE H.K. WANG, U.S. Department of Transportation

The Simulation Performance of a Large Regional Econometric Model. M. RAY PERRYMAN, Baylor University 267

A Mixed Estimation/Time Series Market Model of Automobile Usage. DANIEL M. HAMBLIN, GERALD R. HADDER, Oak Ridge National Laboratory 273

A Comparison of Measured and Estimated Meteorological Data for Use in Crop Growth Modeling. CHARLES R. PERRY, Jr., JULIAN L. ROGERS, JOE T. RITCHIE, U.S. Department of Agriculture 279

A Statistical Analysis of Income Statement Accounts of a Firm. W.W. LIN, Southern Oklahoma State University; W.T. LIN, State University of New York at Buffalo 283

The Development Impact of Water Shortage on Regional Economy. CHONG K. LIEW, CHUNG J. LIEW, University of Oklahoma 289

VII. TOPICS IN MATHEMATICAL STATISTICS

Chair: THOMAS J. TOMBERLIN, Analysis & Inference, Inc.

Appropriate Priors: A Prior Distribution Should Maximize the Utility of the Gamble-Over-Posterior-Distributions. JAMES R. MEGINNISS, Eastman Kodak Company 295

A Test for Normality Based on the Empirical Characteristic Function. THOMAS W. EPPS, University of Virginia; LAWRENCE B. PULLEY, Brandeis University 301

A Note on Estimating the Mean of the Negative Exponential Distribution Using Selected Order Statistics. DALE UMBACH, M. MASOOM ALI, Ball State University 305

Attainable Bounds for Generalized Moments via Mathematical Programming. MICHAEL D. HALE, Monsanto Research Corporation--Mound 307

VIII. REGRESSION THEORY AND METHODS II

Chair: NEELA D. MANAGE, Florida Atlantic University

Nonparametric Multiple Regression by the Alternating Projection Method. WILLIAM E. WECKER, CRAIG F. ANSLEY, University of Chicago 311

Testing for Changes in Regime in Regression Models. JOHN M. IRVINE, Bureau of the Census, ASA Census Junior Fellow 317

Predictive Tests for Structural Change and the St. Louis Equation. JEAN-MARIE DUFOUR, Universite de Montreal 323

Structural Shift: A Comparative Study of Alternative Tests. SHARDA GUPTA, Bentley College 328

Data Analysis for Random Coefficient Linear Models I: Graphics for Low-Order Models. RICHARD H. JONES, U.S. Mission to the OECD, Paris; JAMES C. HICKMAN, ROBERT B. MILLER, University of Wisconsin, Madison 332

Tender Offer Mergers and Stockholders' Wealth: A Random Coefficient Regression Approach. TERRY E. DIELMAN, Texas Christian University; TIMOTHY J. NANTELL, University of Minnesota . . . 334

On the Selection of the Order of an Autoregression: Some Monte Carlo Results. DAVID A. BESSLER, JAMES K. BINKLEY, Purdue University 340

IX. SPECIAL TOPICS IN ECONOMICS

Chair: MAURICE PFANNESTIEL, Wichita State University

Truncated Distributions in Inventory Control. J. KEITH ORD, UTTARAYAN BAGCHI, Pennsylvania State University 343

Optimal Allocation of Corporate Promotion Expenditure. ANDREW W. LAI, Wright State University 347

Are Consumers' Preferences Homothetic? DAVID L. CLEETON, Oberlin College 353

Linking Labor Force and Income Statistics from the CPS. PAUL M. RYSCAVAGE, Bureau of Labor Statistics 357

Michael Neutrality and Human Capital Production. ART GOLDSMITH, University of Connecticut 363

X. ENERGY STUDIES

Chair: NANCY J. KIRKENDALL, Energy Information Administration

Stable and Low Public Utility Rates by Wiener-Hopf Optimization. H.D. VINOD, Fordham University . 369

Forecasting the Cooperatives' Electricity Costs. R.J. MADDIGAN, University of Colorado, Denver; C. GALLAGHER RIZY, Oak Ridge National Laboratories 375

An Investigation of Structural Changes in Residential Electricity Demand. WEN S. CHERN, Lawrence Livermore National Laboratory; HOWARTH E. BOUIS, International Food Policy Research Institute 381

Electricity Expenditure Patterns of Low-Income Households. FENG-YAO LEE, University of Tennessee-Knoxville 387

Productive Efficiency, Capital, and Labor in Power Generation. Y. HSU, W.H. COLLINS, J.O. SMITH, East Carolina University 393

Organization, Integration and Access of Metadata in the Energy Information Administration. STANLEY R. FREEDMAN, Energy Information Administration 396

XI. SEASONAL AND TRADING DAY ANALYSIS

Chair: WILLIAM P. CLEVELAND, Federal Reserve Board

Historical Overview and Comments on Issues in Seasonal Adjustment. WILLIAM BELL, Bureau of the Census 400

A Smoothness Priors Approach to the Modeling of Time Series with Trends and Seasonalities. GENSHIRO KITAGAWA, The Institute of Statistical Mathematics, Tokyo; WILL GERSCH, University of Hawaii, Honolulu 403

Confidence Intervals for Seasonally Adjusted Data. STEVEN HILLMER, University of Kansas 409

On Models of Airline Data. JOSEPH B. SEIF, St. John's University 415

Discussion - DAVID A. PIERCE, Federal Reserve Board 418

Discussion - W. ALLEN SPIVEY, University of Michigan 420

XII. STUDIES IN EMPLOYMENT AND INCOME

Chair: PAUL M. RYSCAVAGE, Bureau of Labor Statistics

Ignorance in the Labor Market: A New Approach for Measuring Information Content. RICHARD A. HOFLER, University of Tennessee-Knoxville; SOLOMON W. POLACHEK, University of North Carolina, Chapel Hill 422

Male-Female Income Differential in Canada. CAMILO DAGUM, University of Ottawa 426

Sex Differences in Voluntary Employment Turnover by Younger Workers. JOHN G. MARCIS, Virginia Commonwealth University 431

A Model of Time-Dependent Offer Generations for the Unemployed Job Searchers. BONG JOON YOON, Southern Illinois University-Carbondale 437

Participation in the All-Volunteer Force: Its Effect on Civilian Earnings. CHOONGSOO KIM, GILBERT NESTEL, Ohio State University 440

XIII. APPLICATIONS IN MACROECONOMICS

Chair: KAN H. YOUNG, Department of Commerce

Investment: The Past, Present and Future. ROBIN ROWLEY, McGill University 445

On the Rationality of ASA-NBER Survey Data on Expectations. KAJAL LAHIRI, CHRISTIE TEIGLAND, State University of New York at Albany 448

Stabilization Policy 1971 through 1981: Measures of Relative Performance. ANDREW STERN, California State University-Long Beach 454

XIV. FORECASTING TIME SERIES

Chair: GRETA M. LJUNG, Boston University

Time Series Analysis for Forecasting Births by Parity. MOHAMED AL-OSH, King Saud University . . . 459

A Comparison of Univariate Forecasting Techniques Based on Economic Time Series. JOHN GEWEKE, University of Wisconsin-Madison; RICHARD MEESE, University of California-Berkeley 465

Disaggregation of a Time Series. DANIEL O. STRAM, Princeton University; WILLIAM W.S. WEI, Temple University 468

Temporal Aggregation and Time Series. BOVAS ABRAHAM, University of Waterloo 474

XV. LINEAR AND SIMULTANEOUS EQUATIONS MODELS: METHODS AND THEORY

Chair: DAVID C. CHENG, University of Alabama

On the Fundamental Issue in the Econometrics of Contemporaneous Correlation. ASATOSHI MAESHIRO, University of Pittsburgh 478

Degrees of Freedom For Simultaneous Estimators: N or N-K or ...? JAMES K. BINKLEY, Purdue University; GLENN NELSON, University of Minnesota 484

Some Evidence on the Distribution of Elasticity Estimators in Translog Models. RICHARD G. ANDERSON, JERRY G. THURSBY, Ohio State University 488

Discriminating Between Two Populations with Underlying Linear Structures. R. SRINIVASAN, Temple University; B. MICHAEL WHARTON, Fordham University 494

The Group Method of Data Handling and the Relative Importance of Monetary and Fiscal Policies. HUI S. CHANG, University of Tennessee 497

A Generalized Three-Way Factorial Design with Marketing Application. STEPHEN N. HU, Michigan Department of Transportation 502

XVI. ANALYSIS OF ECONOMIC TIME SERIES

Chair: GORTI V. NARASIMHAM, Department of Commerce

Existence of Construction Profiles Seasonality. SOON PAIK, U.S. Department of Labor; HUI S. CHANG, University of Tennessee 505

Seasonal, Cyclical, and Secular Stability of International Trade Flows: Canadian Imports. JAMES A. DUNLEVY, Miami University; TIMOTHY A. DEYAK, Louisiana State University 511

On the Impact of Foreign Direct Investment, an Alternative Model. HAMID SHAHRESTANI, University of Cincinnati 517

Behavior of Price and Production in a Grain Market with Rational Production and Storage. DOUGLAS GORDON, GERALD PLATO, U.S. Department of Agriculture 522

Construction of Economic Index Numbers with an Incomplete Set of Data. KEITH C. BROWN, San Diego State University; K. RAO KADIYALA, Purdue University 528

XVII. LINEAR AND SIMULTANEOUS EQUATION MODELS: APPLICATIONS

Chair: JAMES K. BINKLEY, Purdue University

Forbes 500: An Illustration of Collinearity with Business Data. MARY WHITESIDE, University of Texas 533

An International Telephone Demand Study Using Pooled Estimation Techniques. WILLIAM R. SCHULTZ, JOHN E. TRIANTIS, American Telephone & Telegraph, Long Lines 537

Advertising and Firm Profitability: A Simultaneous-Equation Model. CARL E. FERGUSON, Jr., DAVID C. CHENG, University of Alabama 543

Monetary Expectations and Nominal Interest Rates. GIORGIO CANARELLA, NEIL GARSTON, California State University-Los Angeles 549

Cross-Section Regression Estimates of the Sources of NOW Account Deposits. DARREL W. PARKE, STEPHEN B. TAUBMAN, Federal Reserve Board 554

Modelling Common Stock Beta Coefficients as First-Order Markov Processes. GORDON J. ALEXANDER, P. GEORGE BENSON, CAROL E. EGER, University of Minnesota 556

Using a Moving Centroid of Points to Solve Supply and Demand Functions with Multiple Intersections. PURNELL H. BENSON, Rutgers Graduate School of Management 562

CONTRIBUTED PAPERS--POSTER SESSIONS

Methodology Used by Health Care Financing Administration to Project National Health Expenditures. MARK S. FREELAND, CAROL ELLEN SCHENDLER, Health Care Financing Administration 568

Estimation of Total Petroleum Imports: Application of Time Series Methods. NANCY J. KIRKENDALL, EUGENE M. BURNS, Energy Information Administration 571

The Quality of Preliminary Estimates of Industrial Production: A Cross-Country Time Series Analysis. ALAN PANKRATZ, MARK P. MICHAELS, DePauw University 576

An Examination of Inference Procedures for Least Absolute Value Regression. TERRY E. DIELMAN, ROGER C. PFAFFENBERGER, Texas Christian University 582

Bootstrap Stepwise Regression. CATHLEEN ANN PLATT, San Francisco State University 586

Decomposition of Firm Income Accounts Growth Rates. MAURICE PFANNESTIEL, Wichita State University 590

Problems Involving Use of Accounting Data with Reference to Multinationals in the Wholesaling Industry. KIMON J. CONSTAS, Fayetteville State University 595

A General Model of the Optimal Submission Order of Economic Manuscripts. STUART A. LOW, Arizona State University 599
